This record-breaking growth has been influenced by Hopkinton's proximity to Worcester, Boston, and Providence, Rhode Island, and its easy accessibility to Routes 495, 9, and the Massachusetts Turnpike. The rural beauty and friendly small-town character of Hopkinton have been preserved as the town's industrial base has changed from agriculture to biomedical and technology. Sheffield is a picturesque New England town located in the Housatonic River Valley of Berkshire County in Western Massachusetts. Comprised of two villages, Sheffield and Ashley Falls, the town's development pattern has been greatly influenced by its physical features: the Housatonic River and its wide floodplain; the Schenob Brook wetland complex and the steep slopes of the Berkshire Hills on the east and the Taconic Range on the west. Noted for its deep agricultural soils, much of Sheffield remains open and in agricultural production. A combination of wide open river valley, mountain vistas and active farmland makes Sheffield one of the most scenic towns in the Commonwealth.

In addition to being known around the world for contributions to industry and agriculture, Green Bay is the smallest city to host a National Football League team. Founded in 1919, the 13-time National Champion Green Bay Packers are the only NFL team to be owned by its fans. Residents who move away often return home for the quality of life, family-friendly values and strong business community - not to mention the area's contagious spirit and personality.
